CertainTeed SureStart™ PLUS

HOMEOWNERS

ShingleMaster™ PRO CREDENTIALED certainteed SAINT-GOBAIN

Protect your investment

The extra measure of protection when a credentialed company installs an Integrity Roof System®

SureStart™ PLUS Protection for individual homeowners who own and use the property as their residence where the shingles are installed. (Excludes condominiums, homeowners associations, etc.; refer to CertainTeed's limited warranty for details.)

All CertainTeed shingles carry standard SureStart protection which fully covers your shingles in the event of a manufacturing defect during the early years following installation. Once the SureStart period ends, typically after 10 years, you are covered for shingles only and at a reduced rate as the roof ages.

When a CertainTeed Integrity Roof System® is installed, your ShingleMaster™ PRO Credentialed Contractor is authorized to offer you additional SureStart PLUS protection, which takes traditional SureStart protection and extends coverage for up to 50 years.

Warranty Type	Standard	★★★ 3-STAR	★★★★ 4-STAR
Coverage	Manufacturing Defects	Manufacturing Defects	Manufacturing Defects
SureStart - Single Family (Non-prorated)	10 years	50 years*	50 years**
Materials & Labor	✔	✔	✔
Tear-Off		✔	✔
Disposal		✔	✔
Workmanship			15 years

NOTE: XT™25 shingles carry 10 years with 3-STAR Coverage and 20 years with 4-Star Coverage.

Fully transferable for 15 years with 3-STAR Coverage and 20 years with 4-STAR Coverage.

*Applies to single-family detached houses. Duration for all other types of structures is limited to 25 years.
**Applies to single-family detached houses. Duration for all other types of structures is limited to 30 years.

Low-Slope Roof Sections: If a project being roofed with CertainTeed shingles has a low-slope section that will be roofed with our Flintlastic® SA , or our SMARTCOAT™ systems, SureStart PLUS extends FULL coverage for the duration of the low-slope warranted period, depending on the level of protection you choose. Residential shingles must be a minimum of one and a half times (1.5X) the amount of flat roof submitted (low-slope square maximum may apply). See Low-Slope Residential Limited Warranty for system requirements and warranty durations

The accreditation of a roofing contractor as a CertainTeed Credentialed Contractor is CertainTeed's acknowledgment that the contractor has met program criteria. This designation is intended to assist in the selection of a contractor, but is not intended as a guarantee of the contractor's workmanship or integrity. Roofing contractors are independent organizations and are not agents or affiliates of CertainTeed. As independent contractors, they, and not CertainTeed, are solely responsible for the quality of their work and the conduct of their employees. Contractor credential status is available by contacting CertainTeed.

See CertainTeed's Asphalt Shingle Residential Products Limited Warranty for complete details, conditions, limitations and exclusions.

Integrity Roof System®

PERFORMANCE ENGINEERED FOR COMPLETE PROTECTION, STRONG RESILIENCE AND LASTING BEAUTY

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System combines key elements that help ensure you have a well-built roof for long-lasting performance.

1. Waterproofing Underlayment

The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.

2. Water-Resistant Underlayment

Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

3. Shingle Starter

Designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

4. Shingles

Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

5. Ventilation

A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.

6. Hip & Ridge

Available in numerous profiles, these accessories are used on the roof's hip and ridge lines for a distinctive finishing touch to your new roof.

Products shown above are for illustrative purposes only. For complete list of CertainTeed products in each category, please visit certainteed.com.
